

Competent Tower Climber

Who is this class for?

This class is geared to training the tower industry. This class is for anyone who climbs towers.

What are the advantages of attending a Fall Protection class if I have already worked on towers using Fall Protection?

This class has all the information that you would need to ensure that you are using Fall Protection equipment properly.

What does the 2-Day class entail?

At the beginning of the class, we hand out Fall Protection manuals. A PowerPoint presentation covers the following information:

- We discuss all parts of the Fall Protection hierarchy
- We spend a great deal of time covering the four parts of a Fall Arrest System
- Inspection of the system
- The proper donning of the harness
- Proper usage of the equipment
- How to maintain the equipment
- When and where the equipment is needed
- At the end of the 2nd day each student will perform a Rescue Scenario from a Tower.

We also have hands-on exercises throughout the class, along with a Fall Protection demonstration to show how the amount of arresting force is generated, utilizing various types of lanyards. At the end of the class, we will issue a test to make sure the information is retained. Shortly after the conclusion of the class, we will issue certificates of completion for those students who pass the class.

What happens if a person is using Fall Protection equipment outside of its limitations?

It will not work properly! The myth is, "If I am wearing the gear, I must be protected." Not true. You must wear the gear, and it must be hooked to an anchor; not hooked to just anything you can find any which way you want, but to a suitable anchor with the system tied off within the limitations of the equipment.

Where can Safety Connection, Inc. perform the class?

Anywhere you would like. We can perform the class at your location, or our training facility in Baton Rouge, LA.

What will be needed if we come to your location?

All we need is a classroom, table, and a screen to apply the PowerPoint presentation to teach your students.

Note: We offer a 1 Day Competent Climber Refresher if you have been to Safety Connection, Inc. 2-Day Competent Climber Course within the last 15 months. You are only eligible for the refresher if you had your original training with us.
